Session Title: Multiple Personalities: Using Technology to Teach **Everyone**

Description:

Personality types are often very visible in instructional interactions. We've all had the "know-it-all" who sits up front and talks at every opportunity or the quiet-one who cowers in the back of the classroom. Have you ever wondered if you are reaching all of these different students? Is there a way that technology can help?

We will briefly explore the basic elements of personality as defined by some of the popular personality tests (such as Myers-Briggs) and how to recognize these personality types by recognizing student characteristics. We will then be link these characteristics to the three basic student-learning styles and how to make more sophisticated choices regarding technology usage in the classroom and beyond that help your students to learn and achieve success. The presentation will include examples of different technologies and how they can be applied to the different personality types and learning styles that are in each of your classes.

Audience: Anyone/Everyone

Technical Level: Low

CALI CONFERENCE SPEAKER PERMISSION STATEMENT 2002

=====

Part of the mission of the CALI Conference for Law School Computing® is to create a depository of presentations available for use throughout the year and to permit those unable to attend the Conference in person to view Conference events over the live web cast. To achieve this goal all speakers must be willing to grant CALI the necessary permissions.

I acknowledge that I am a scheduled Speaker at the CALI Conference for Law School Computing® ("the Conference") to be held June 20-22, 2002. In consideration of having my Conference registration fee waived as a Speaker, I hereby consent to all of the following terms:

1. I hereby grant to the Center for Computer-Assisted Legal Instruction ("CALI") permission to use, reproduce, perform, transmit, display and distribute my presentation, image, voice and any text or media files (such as a PowerPoint presentation) included in my presentation at the CALI Conference for Law School Computing® as part of a live Internet broadcast of the Conference.
2. I hereby grant to CALI permission to permanently record my presentation.
3. I hereby grant to CALI a worldwide, perpetual, non-exclusive license to reproduce, publish, perform, transmit, display, create derivative works my presentation, image, voice and any text or media files (such as a PowerPoint presentation) included in my presentation at the CALI Conference for Law School Computing® in any manner in the future. At all times, any use by CALI of my presentation will state that I am the author.

This license to CALI does not diminish or change any copyrights that I may have in my presentation or in any related materials.

Please signify your consent to the above conditions, by one of the following methods before Saturday, June 1, 2002:

Peter E. Thorsett
College of Law | Georgia State University

Date

1. Print and snail-mail a signed copy postmarked prior to May 31, 2002, to Deb Quentel, CALI, 565 W. Adams St., Chicago, IL 60661-3691, or
2. Sending a reply email to Deb Quentel at permissions@cali.org, including your name and institution.
